

Babyproof

Original title: Babyproof

When Nora and Viggo (both 27 years old) become parents for the first time, the initial euphoria doesn't last. The arrival of their first child, Baby, brings about numerous challenges and unforeseen difficulties. Consequently, the newly minted parents find themselves grappling with not only their own expectations but also those imposed by friends, in-laws, and the wider social milieu. In a world saturated with idealised models and an abundance of well-intentioned advice, Nora and Viggo strive to navigate their own path and adhere to their unique understanding of parenthood.
