

Cold Courage

Original title: Cold Courage

Mari, a self-assured psychologist with a powerful ability to 'read' people, is haunted by a damaged childhood and assembles 'The Studio' - a team of equally-damaged experts in investigation, hacking and impersonation. Lia, a graphic artist, has fled an abusive stalker who has tracked her to London and is fascinated by this woman who has chosen to fight rather than run. Mari's current obsession is to stop the meteoric rise of a charismatic populist politician whom she believes is a dangerous demagogue. She needs an unknown woman to infiltrate his campaign. Who better than Lia?
