

On its Way Down

Original title: La chute

Zinal, a small town in the Swiss Alps, looks straight up toward the melting glaciers of the Couronne Impériale. But what can the townspeople do? They can't stop the world from falling apart. And when the threat is so immediate, and their powerlessness so great, can their response be anything other than nihilistic, cynical indifference? Then a paraglider falls mysteriously from the sky, and Zinal start to change.
