

Table Dialogues

Original title: Table Dialogues

Table Dialogues is the brainchild of artist duo Robbert&Frank Frank&Robbert, based on their personal experience playing and making. Step into their shoes and experience in small groups – of friends or strangers – what it's like to enter and activate a new universe. Every experience is a performance/installation in which the input of the participants shapes the story. Immersion is based on virtual and physical elements — think clay, chalk, sand, and water, combined with VR-headsets, animation, voice-over and soundscape.
