

The Village Resists

Original title: The Village Resists

From early in the 20th century, the indigenous community of Rio de Janeiro has maintained its ancestral land in the city as a meeting place. But a vast sports stadium has been built next door, which the Brazilian authorities intend to host the finals of the World Cup in 2014 and the Olympic Games in 2016. The film explores how the arrival of these global sporting events is experienced within the indigenous settlement, how the pressure rises, and how the village resists.

CREDITS

DIRECTOR: David Bert Joris Dhert
