

The Werewolf Experience

Original title: The Werewolf Experience

You wake up in a dirty alley in a small Californian town, on an autumn night in 1890. The clouds part, revealing a full moon. And you just can't stop it: you howl, your claws grow, your fur appears. You become bigger, stronger, faster, and very, very hungry. With the townspeople in pursuit, you hunt the sacred white deer that is supposed to cure all diseases, hoping it will bring your reign of terror as a werewolf to an end. In the process, you must confront your inner beast, decide whether or not to follow your bloody instincts, and accept the consequences either way.

CREDITS

DIRECTOR: Christopher Morrison

PRODUCER: Maïté Spaenjers, Jan Hameeuw

WRITER: Ioana Matei, Jef Dehouse,
Christopher Morrison
